Professional Summary

Full Stack Engineer with experience building scalable SaaS applications using React, Next.js, TypeScript, PostgreSQL, and NestJS. Strong in designing RESTful APIs, implementing multi-tenant architectures, and optimizing database performance. Experienced in delivering production-ready backend and frontend features in Agile environments with focus on system scalability and data integrity.

Technical Skills

Frontend — React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

Backend — NestJS, RESTful APIs

Databases — PostgreSQL, Supabase, SQL

Architecture & Practices — Multi-Tenant Architecture, API Design, Performance Optimization

Tools — Git, Agile/Scrum

Professional Experience

Software Developer   Jan 2025 – Present | Bengaluru, India
TECHVED Consulting India Pvt. Ltd.
   Common Harmony – CRM Platform (Art of Living Organization)
   React.js, TypeScript, Tailwind CSS, NestJS, PostgreSQL, Supabase
   • Led end-to-end development of a large-scale CRM and back-office platform supporting multi-role administrative workflows
   • Built scalable frontend interfaces and backend APIs serving teachers, organizers, finance admins, national admins, and EU super admins • Designed and implemented role-based Access Control Management (ACM) enabling dynamic permission customization
   • Developed Fee Settings modules to configure and control program fee structures across tenant regions
   • Architected EU-focused multi-tenant system covering multiple European countries under centralized administration
   • Built secure and scalable RESTful APIs using NestJS and optimized PostgreSQL queries for high-volume workflows
   • Collaborated in Agile/Scrum teams to deliver production-ready releases

Full Stack Developer   Jan 2024 – Dec 2024 | Bengaluru, India
Sumeru Software Solutions Pvt. Ltd
   Participant Management & Registration System (Non-EU Regions)
   React.js, Tailwind CSS, NestJS, PostgreSQL
   • Developed participant registration and management workflows across non-EU regions
   • Implemented complex business logic including transfers, refunds, additional sales, discounts, and offline payments
   • Built backend triggers and rules to manage financial and registration state transitions reliably
   • Developed administrative dashboards and listing pages handling large-scale participant data
   • Ensured data consistency and seamless coordination between frontend workflows and backend services

   AOL Landing Pages React.js / Tailwind CSS
   • Developed responsive UI components for course announcement landing pages
   • Focused on performance, layout consistency, and brand-aligned design
   • Optimized components for cross-device responsiveness

Projects

Connect Together – Real-Time Chat Application ⬈
   • Built full-stack real-time messaging system supporting one-to-one and group conversations
   • Implemented authentication, room-based communication, and profile image uploads
   • Designed relational database schema and handled real-time synchronization using Supabase
   • Optimized PostgreSQL queries for efficient message retrieval

Skill Connect – Skill Exchange Platform ⬈
React.js / Next.js, PostgreSQL, Supabase
   • Developed swipe-inspired skill-matching platform enabling users to connect based on complementary skills
   • Implemented authentication, profile management, and matching logic
   • Designed scalable data models and messaging workflows
   • Focused on user experience and structured database relationships

Portfolio Website ⬈
   • Designed and developed responsive portfolio showcasing projects and technical skills
   • Implemented performance-optimized UI using Tailwind CSS

Education

Sagi Rama Krishnam Raju Engineering College   2020 – 2024 | Bhimavaram, India
Bachelor of Technology in Mechanical Engineering | CGPA: 8.74
